

## McBride Community Forest Governance Survey - September 30, 2015

This survey must be returned to the Community Forest Office no later than close of business October 7, 2105

1. What is the definition of "community" that should be served by the McBride Community Forest? Describe it geographically or by political boundaries.

2. What are your top three priorities for the community forest? Put a 1 on your top priority, a 2 on your second priority and a 3 on your third priority. **Select only 3 options**

	Long-term, sustainable and ecologically sound forest management
	Local employment
	Meaningful community engagement
	Education and research
	Maintain and create recreation and tourism opportunities
	Visual quality
	Range land
	Habitat and healthy wildlife populations
	Cultural heritage resources
	Local production of value added and specialty products
	Non-timber forest products
	Quality and quantity of drinking water and watershed protection
	A healthy living environment
	Sustain a successfully functioning economic community
	Professional and accountable administration and management
